

BehfaLab

AI-Driven Process Mining Tool!

← Follow the Story of chaos

Processes: Core of Your Business

Why they matter:

Efficiency Genesis
Standardization Anchor
Adaptability Enabler
Performance Monitor

Challenges you Face:

Lack of Visibility
Operational Inefficiencies
High Complexity
Wastage of Resources and Time

So What?

You can't manage your

Process

if you can't measure it!

With BehfaLab,

get everything you want to know about your process from **the data**

From now on, with **AI**

A stylized icon representing artificial intelligence. It features a purple cloud-like shape on the left, with several lines extending to the right, each ending in a small circle, resembling a circuit board or neural network.

BehfaLab: Where AI Unleashes Process Mining Magic

BehfaLab automatically *discovers*, *diagnoses*, and *optimizes* real processes by delving into your organization's data. With BehfaLab, unearth the root causes of productivity issues and uncover opportunities for enhancement, even where you least expect them.

**We Show You How Your Process
Really Works!**

3

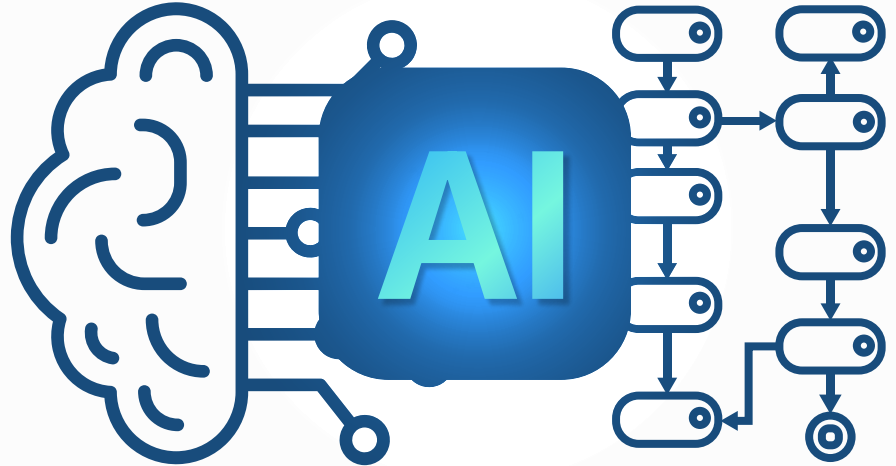

BehfaLab

Private Detective of Your Organization

Imagine Having a **Smart** Assistant that:

- Understands your Processes
- Simplifies Complexities
- Finds Bottlenecks
- Gives Improvement Ideas

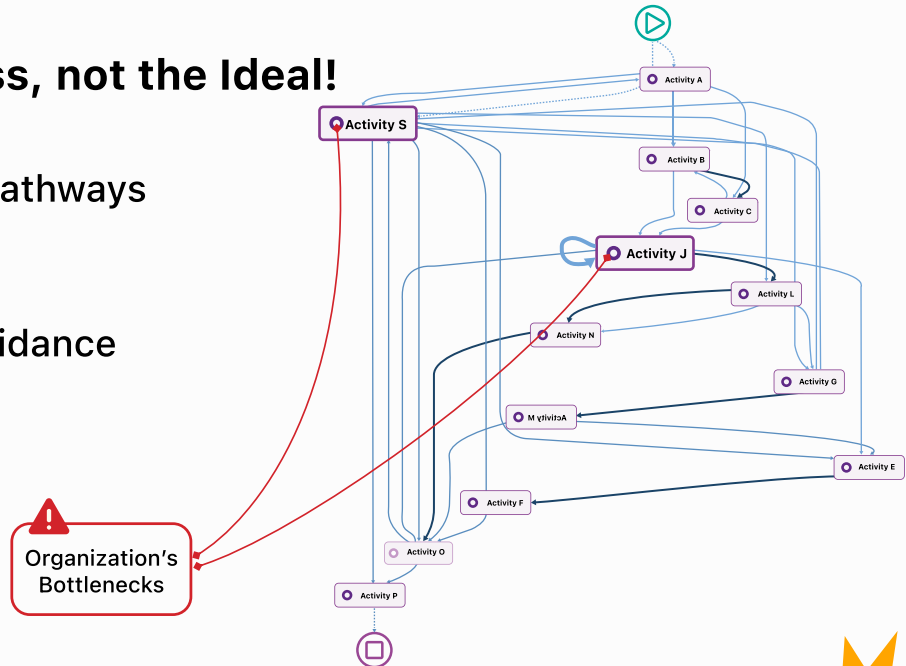

**BehfaLab's Artificial Intelligence is Here
to Make it Happen!**

How Does BehfaLab Help?

AI-Driven Process Discovery

Discover the **Real** Process, not the Ideal!

- Reveal Hidden and Deviant Pathways
- Data-Driven Insights
- Continuous Improvement Guidance
- AI-Backed Process Evolution

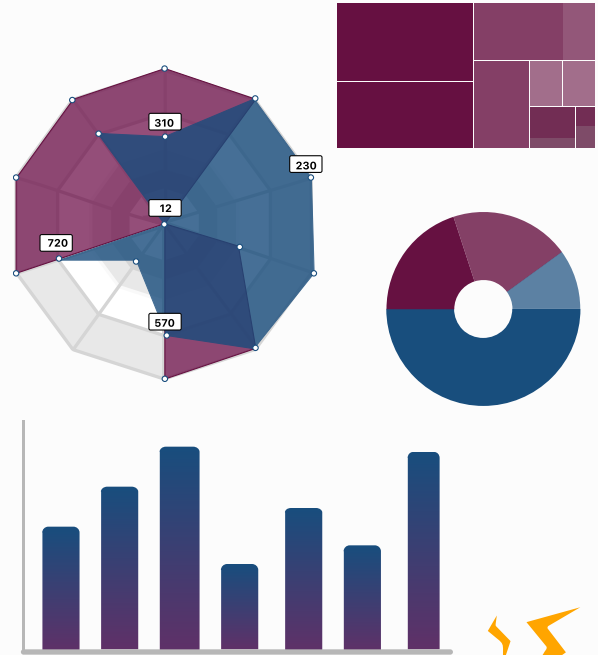

Unlocking Pathways to Endless Improvement!

AI-Driven Performance Mining

Don't Stop for **Continuous** Monitoring and Improvement!

- Efficiency Unleashed with AI
- Identify Efficiency Patterns
- Data-Driven Efficiency Recommendations
- Real-Time Efficiency Monitoring

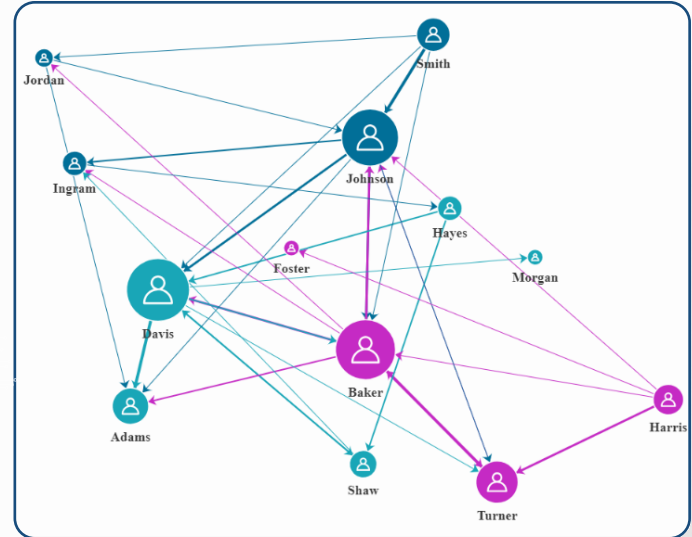

Peak Performance Fueled by Data!

AI-Driven Network Analysis

Decode Your Team's Interactions!

- Intelligent Network Insights
- Optimize Communication Flows
- AI-Powered Collaboration Recommendations
- Real-Time Process Teams Monitoring

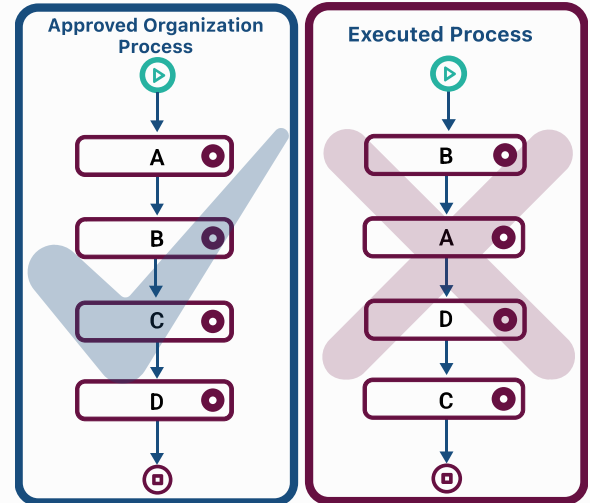

Boost Collaboration, Efficiency, and Decision-Making with Data-Driven Insights!

AI-Driven Conformance Checking

Measure the **Alignment** of Real Processes With Your Business Rules!

- Automated Compliance Assurance
- Detect Process Variations
- AI-Backed Corrective Actions
- Real-Time Conformance Monitoring

Automate Compliance and Elevate Operational Excellence With Data-Driven Insights!

How Will BehfaLab Benefit You?

Standardization

Identifying non-compliances and boosting the organization's audit speed and accuracy

Fact-Based Decision-Making

Having fact-based and data-driven results

Organizational Transparency

Gaining a comprehensive understanding of the performance status of the organization

Increasing Productivity

Continuous and automated monitoring of the organization's performance indicators

Cost and Time Reduction

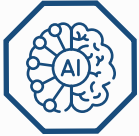

Accurately identifying bottlenecks and inefficiencies within the organization

Agility

Improving accessibility to the root of the organization's problems

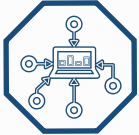

Why BehfaLab?

AI-Driven Interpretation and Improvement of the Process

1ST to the Middle East Market

Integration With Information Systems

High Level of Data Protection

Customization

Competitive and Flexible Pricing

BehfaLab is not Merely a Product

Free Support

Free Training

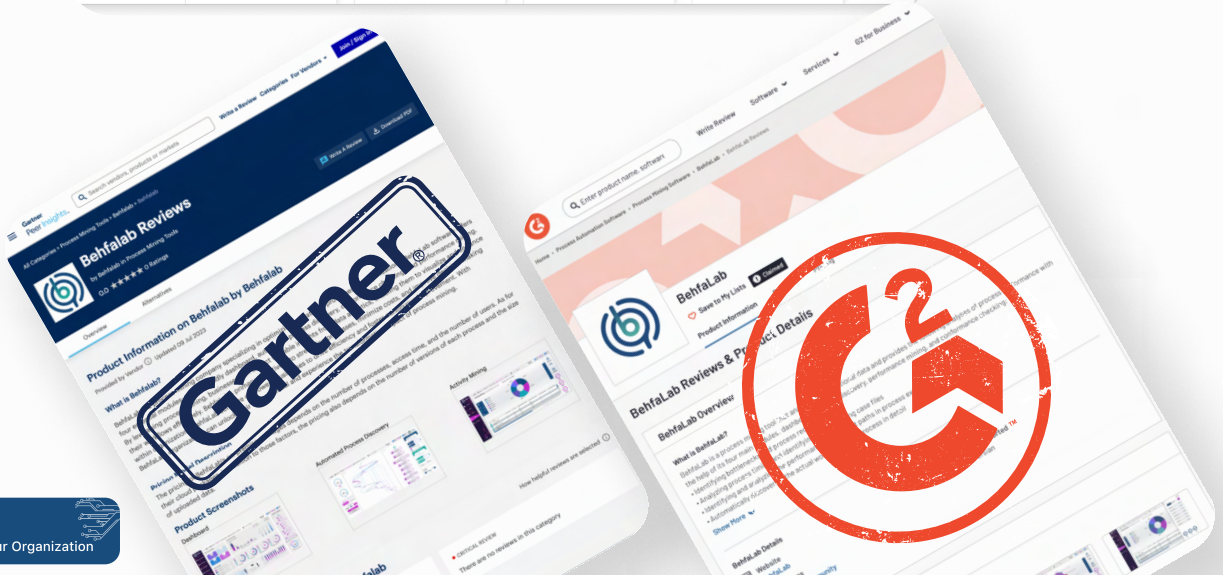

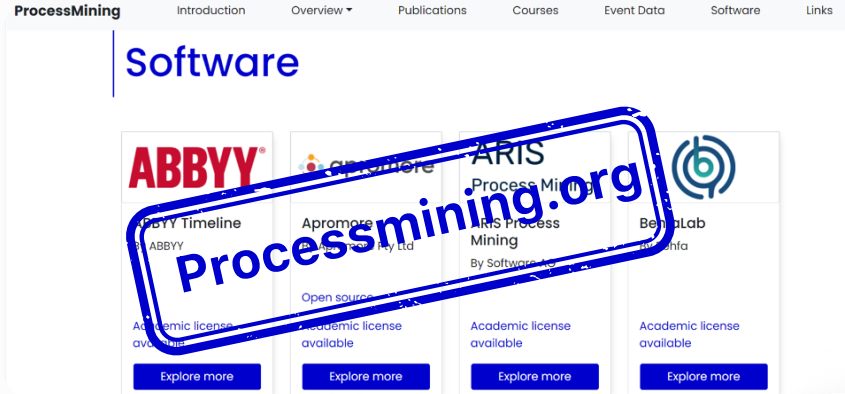

Improvement Consultation

BehfaLab, Trusted by Large Companies

BehfaLab, A World-Class International Process Mining Tool

I think it's a very interesting proposition for the Iranian and the Middle East market.

It's great that BehfaLab is producing this type of technology in a market where I think process mining is not used a lot.

Prof. Wil van der Aalst

The Godfather of Process Mining

The 8th Process Mining Day
of BehfaLab

Organizations should consider the right time to adopt this technology, and BehfaLab is facilitating that initial step.

BehfaLab significantly reduces barriers for people in Iran and the Middle East to explore Process Mining.

BehfaLab

Private Detective of
Your Organization

About us:

BehfaLab Pioneering AI-Driven Process Mining in the Middle East since 2020. We reveal the true workings of your processes through data insights, pinpoint inefficiencies, highlight process violations, and provide tailored recommendations.

Join forces with us in your journey towards process improvement!
